T +49 30 283 879 10 10

Non-profit organizations that have their legal seat abroad and are accredited in the Transnational Giving Network through the Maecenata Foundation can receive tax privileged donations from Germany. For this purpose, the Maecenata Foundation issues donation receipts to the donors.

There are two types of donation receipts:

- Standardized donation receipts
- Personalized donation receipts

Standardized donation receipts apply to all donations of less than 300 EUR. Donors can download it here. In order to claim their donation for tax purposes, donors must submit the receipt together with their bank statement to the relevant tax authorities.

Personalized donation receipts apply to all donations over 300 EUR. If recurring donations to an organization exceed the amount of 300 EUR in one year (all monthly payments higher than 25 EUR), personalized donation receipts are also issued.

For this purpose, the Maecenata Foundation requires

- the name and
- the address of the donor (individual or company).

The donor must provide these information when making the transfer (online or by direct debit) or submit it subsequently via e-mail: tg@maecenata.eu. Without these information we cannot issue a donation receipt.

Personalized donation receipts are sent automatically in the month following the donation or, in case of recurring donations, at the beginning of the year following the donations.
